DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 10/046,108, filed on January 14, 2002.

Allowable Subject Matter

2. This application is in condition for allowance except for the following formal matters listed below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Specification

3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.
4. The disclosure is objected to because of the following informalities: The word "corona" is misspelled "colonna" (Page 13 Line 13), and the name "Ciba-Geigy" is misspelled "Chiba-Geigy." Appropriate correction is required.
5. The use of the trademarks TINUBINE, SUMISORB, BIOSORB, ADECASTSAB, SEASORB, ACRYPRENE, UBITEX, and DIANAL have been noted in this application.

They should be capitalized wherever they appear and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Claim Objections

6. Claim 1 objected to because of the following informalities: The final clause in claim 1 reads "...or aralkyl which is optionally substituted provided that at least one of X_1 to X_{10} is not hydrogen." This is a non sequitur as the aralkyl is being described as one of a Markush-type list of potential groups represented independently by X_1 to X_{10} . For the purposes of examination, the claim was construed to read "...or aralkyl which is optionally substituted; provided that at least one of X_1 to X_{10} is not hydrogen." Appropriate correction is required.

7. Claim 11 is objected to because of the following informalities: The word "complex" is misspelled as "complexes." Appropriate correction is required.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
